

Kevin Caron

MULTI-SPECIES ANGLER

The angler

Kevin has been fishing seriously since 2022, and the Richelieu River has become his home water. He works mostly finesse — slow presentations, light tackle and a lot of patience — an approach that pays off on pike as much as on anything else. His biggest fish so far is a 20 lb chinook salmon; the one he's still chasing is a 55-inch muskie.

What I can't offer yet

We don't have audience numbers to show you yet, and we're not going to invent any. What we do have: a documented season, a public website, and every intention of doing this properly. If you're after big immediate reach, we're not there. If you'd rather build with a crew that's just starting — and be the first name on our boats — let's talk.

Let's talk

Send us a few lines and we'll get back to you quickly. No fixed packages — we shape it around what makes sense for you.
